

NEW! Wireless Pressure Mats

*With Embedded Transmitter eliminates wiring - 5+ Year Battery - Supervised - Heavy Duty Corrugated Mats
LONG RANGE 900 MHz Dependability - Compliments Existing Motion Detectors - Provides Sure Detection.
Available With both Commercial Alarm and Local Receivers - 3 Standard Mat sizes - Custom Sizes Available*

The New Wireless Pressure Mats Detects Intrusion into Areas and Spot Locations and immediately sends signal to the Wireless Receiver to activate Alarm Panel or Control with 1 to 16 zone Receivers Each zone can accommodate up to 10 Wireless Mats. Local Receivers Activate Horn Alert with 1 to 40 Zones and 400 Wireless Mat Capacity.

WIRELESS PRESSURE MATS FOR SECURING ANY LOCATION

BOATS

- Rolls up for Stowage
- No Wires to Tangle

FACILITIES

- Protect Inventory
- Prevent Theft

HALLWAYS

- Can be mounted near a door to monitor Entry

BALCONIES

- Can Be used Outside
- Waterproof

The battery operated Wireless Pressure Mat/Transmitter Unit can be mounted inside or outside. Waterproof - Buried under soil or ground cover for perimeter protection or Area Intrusion detection. Mat appearance provides Indiscrete Indoor protection.

Wireless Receivers - Alarm Monitoring and Models. 1-16 zones, Up to 10 HUB's per zone.

Local Monitor Receivers with Alert Notification - 1-40 zones, up to 10 HUB's per zone.

WIRELESS PRESSURE MATS

WIRELESS PRESSURE MATS - EMBEDDED TRANSMITTER

WPM-16 - 9 x 16 corrugated floor mat with 900MHz transmitter embedded.

WPM-24 - 18 x 24 corrugated floor mat with 900MHz transmitter embedded.

WPM-30 - 24 x 30 corrugated floor mat with 900MHz transmitter embedded.

WIRELESS PRESSURE MATS - RECEIVERS

GENERAL PURPOSE RECEIVER - 300MHZ

HUB-W1R

300MHz 1 Channel Receiver monitors up to 10 identically coded transmitters relay output.

LOCAL ALERT RECEIVERS - 900MHZ

WR-900-1

900MHz 1 Channel Receiver monitors up to 10 identically coded transmitters. Audio monitoring of alarm, low battery, and missing transmitter conditions, relay output.

HUB-W900R-40

900MHz Receiver, 40 Channel monitors up to 40 transmitters. monitors alarm missing transmitter, and low battery conditions, LCD Information readout, relay output.

AUTO VOICE DIALER RECEIVERS - 900 MHZ

ERU-900NP

900MHz Single channel Supervised Receiver - Auto Voice Dialer monitors up to 10 identically coded transmitters. monitors low battery, missing transmitter, aux output.

AD-900

900MHz Single Channel Receiver, 4 Channel Auto Voice Dialer

ALARM PANEL - SYSTEM RECEIVERS - 900MHZ

HUB-W2R

900MHz Single Channel Receiver; Supervised, low transmitter battery, missing transmitter, up to 10 identically coded transmitters LEDs indicate a low battery, alarm, or a missing (inoperative) transmitter, until reset.

WR-900-4

900MHz Receiver; 4 Channel, monitors up to 4 transmitters, 4 relay outputs. Provides alarm, low battery, and missing transmitter conditions.

WR-900-16

900MHz Receiver; 16 Channel, monitors up to 16 transmitters. 4-relay outputs. Each output can be programmed to monitor alarm, low battery, and missing transmitter conditions, identifies transmitter fault via a 7-segment display.

**BATTERY OPERATED
& WIRELESS**

Wireless Pressure Mats
come in 3 standard sizes.
Custom sizes also Available

**MONITOR UP TO
400 LOCATIONS**
